# iPhone 16e

Powered by our latest generation of Apple silicon, A18. It enables a fast and powerful experience from using Clean Up to remove a photobombed, to playing a fast-paced graphics-intensive game. A18 will help 16e feel fast for years to come, and you'll discover a huge boost in speed when upgrading from an older phone.

40% faster than iPhone SE (3rd gen) - 80% faster than iPhone 11

C1 Cellular Modem - The first Apple designed cellular modem. It provides fast and reliable 5G connectivity, and it's the most power-efficient modem ever in an iPhone.

# Apple iPhone 16e

Breakthrough battery life - We combined the incredible power efficiency with an all-new internal design for iPhone 16e that has been optimized for a larger battery. Together, it paves the way for an unprecedented level of battery life in a 6.1-inch iPhone: an astonishing 26 hours of video playback. When you need to charge, iPhone 16e has USB-C. You can connect the same cable to your other devices and a wide variety of accessories. And of course, it supports wireless charging too.

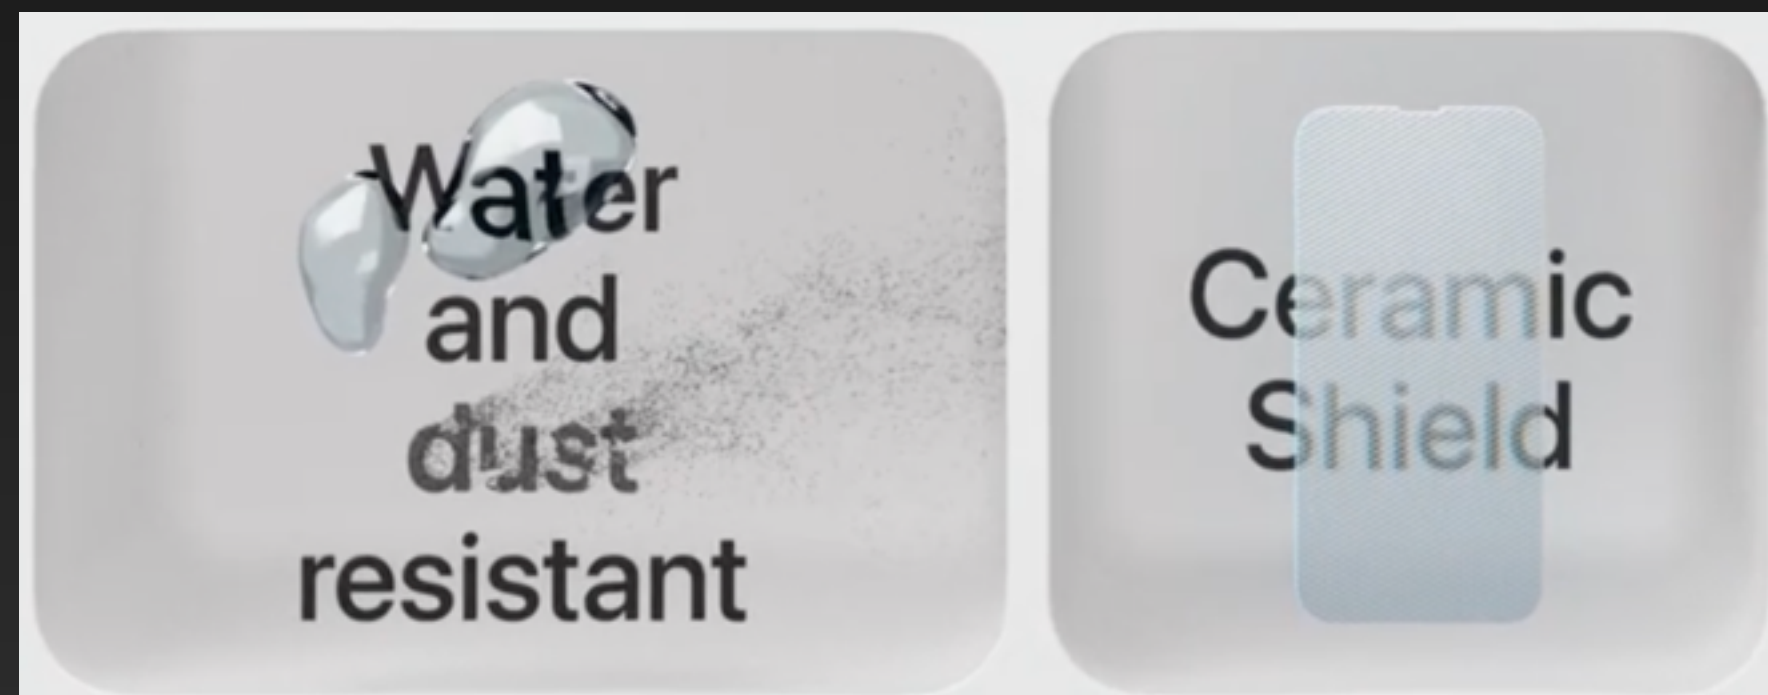

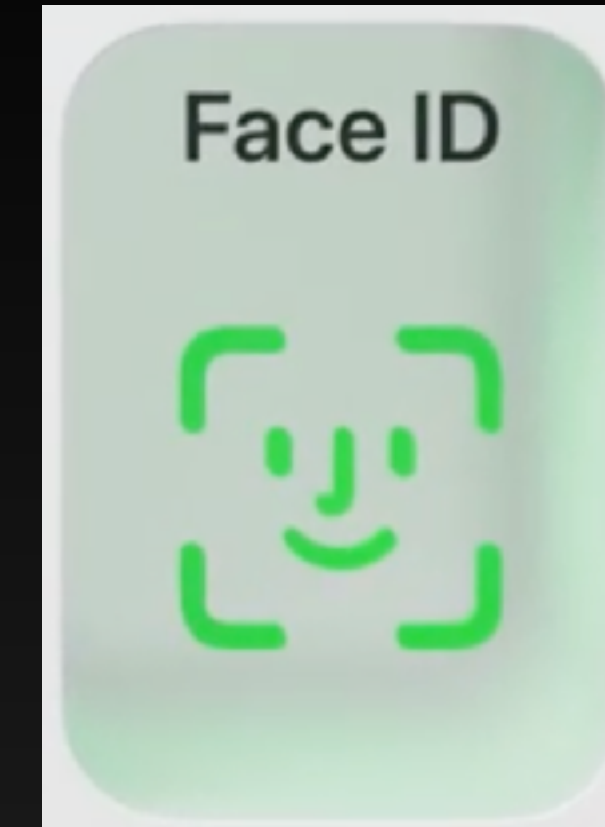

Camera - With iPhone 16e, they created a custom version of our remarkable 48-megapixel Fusion camera. It's a marvel of engineering that combines the capability of two cameras in one, it allows it to capture amazing images that balances light and detail. Compared to older iPhones it provides up to four times the resolution. It also has an integrated 2x Telephoto, so you can zoom in with optical quality. Video looks fantastic too, with recordings in 4K and high-quality audio that makes it sound as good as it looks. The front-facing camera has the same great resolution as all iPhone 16 models.

# iPhone 16e

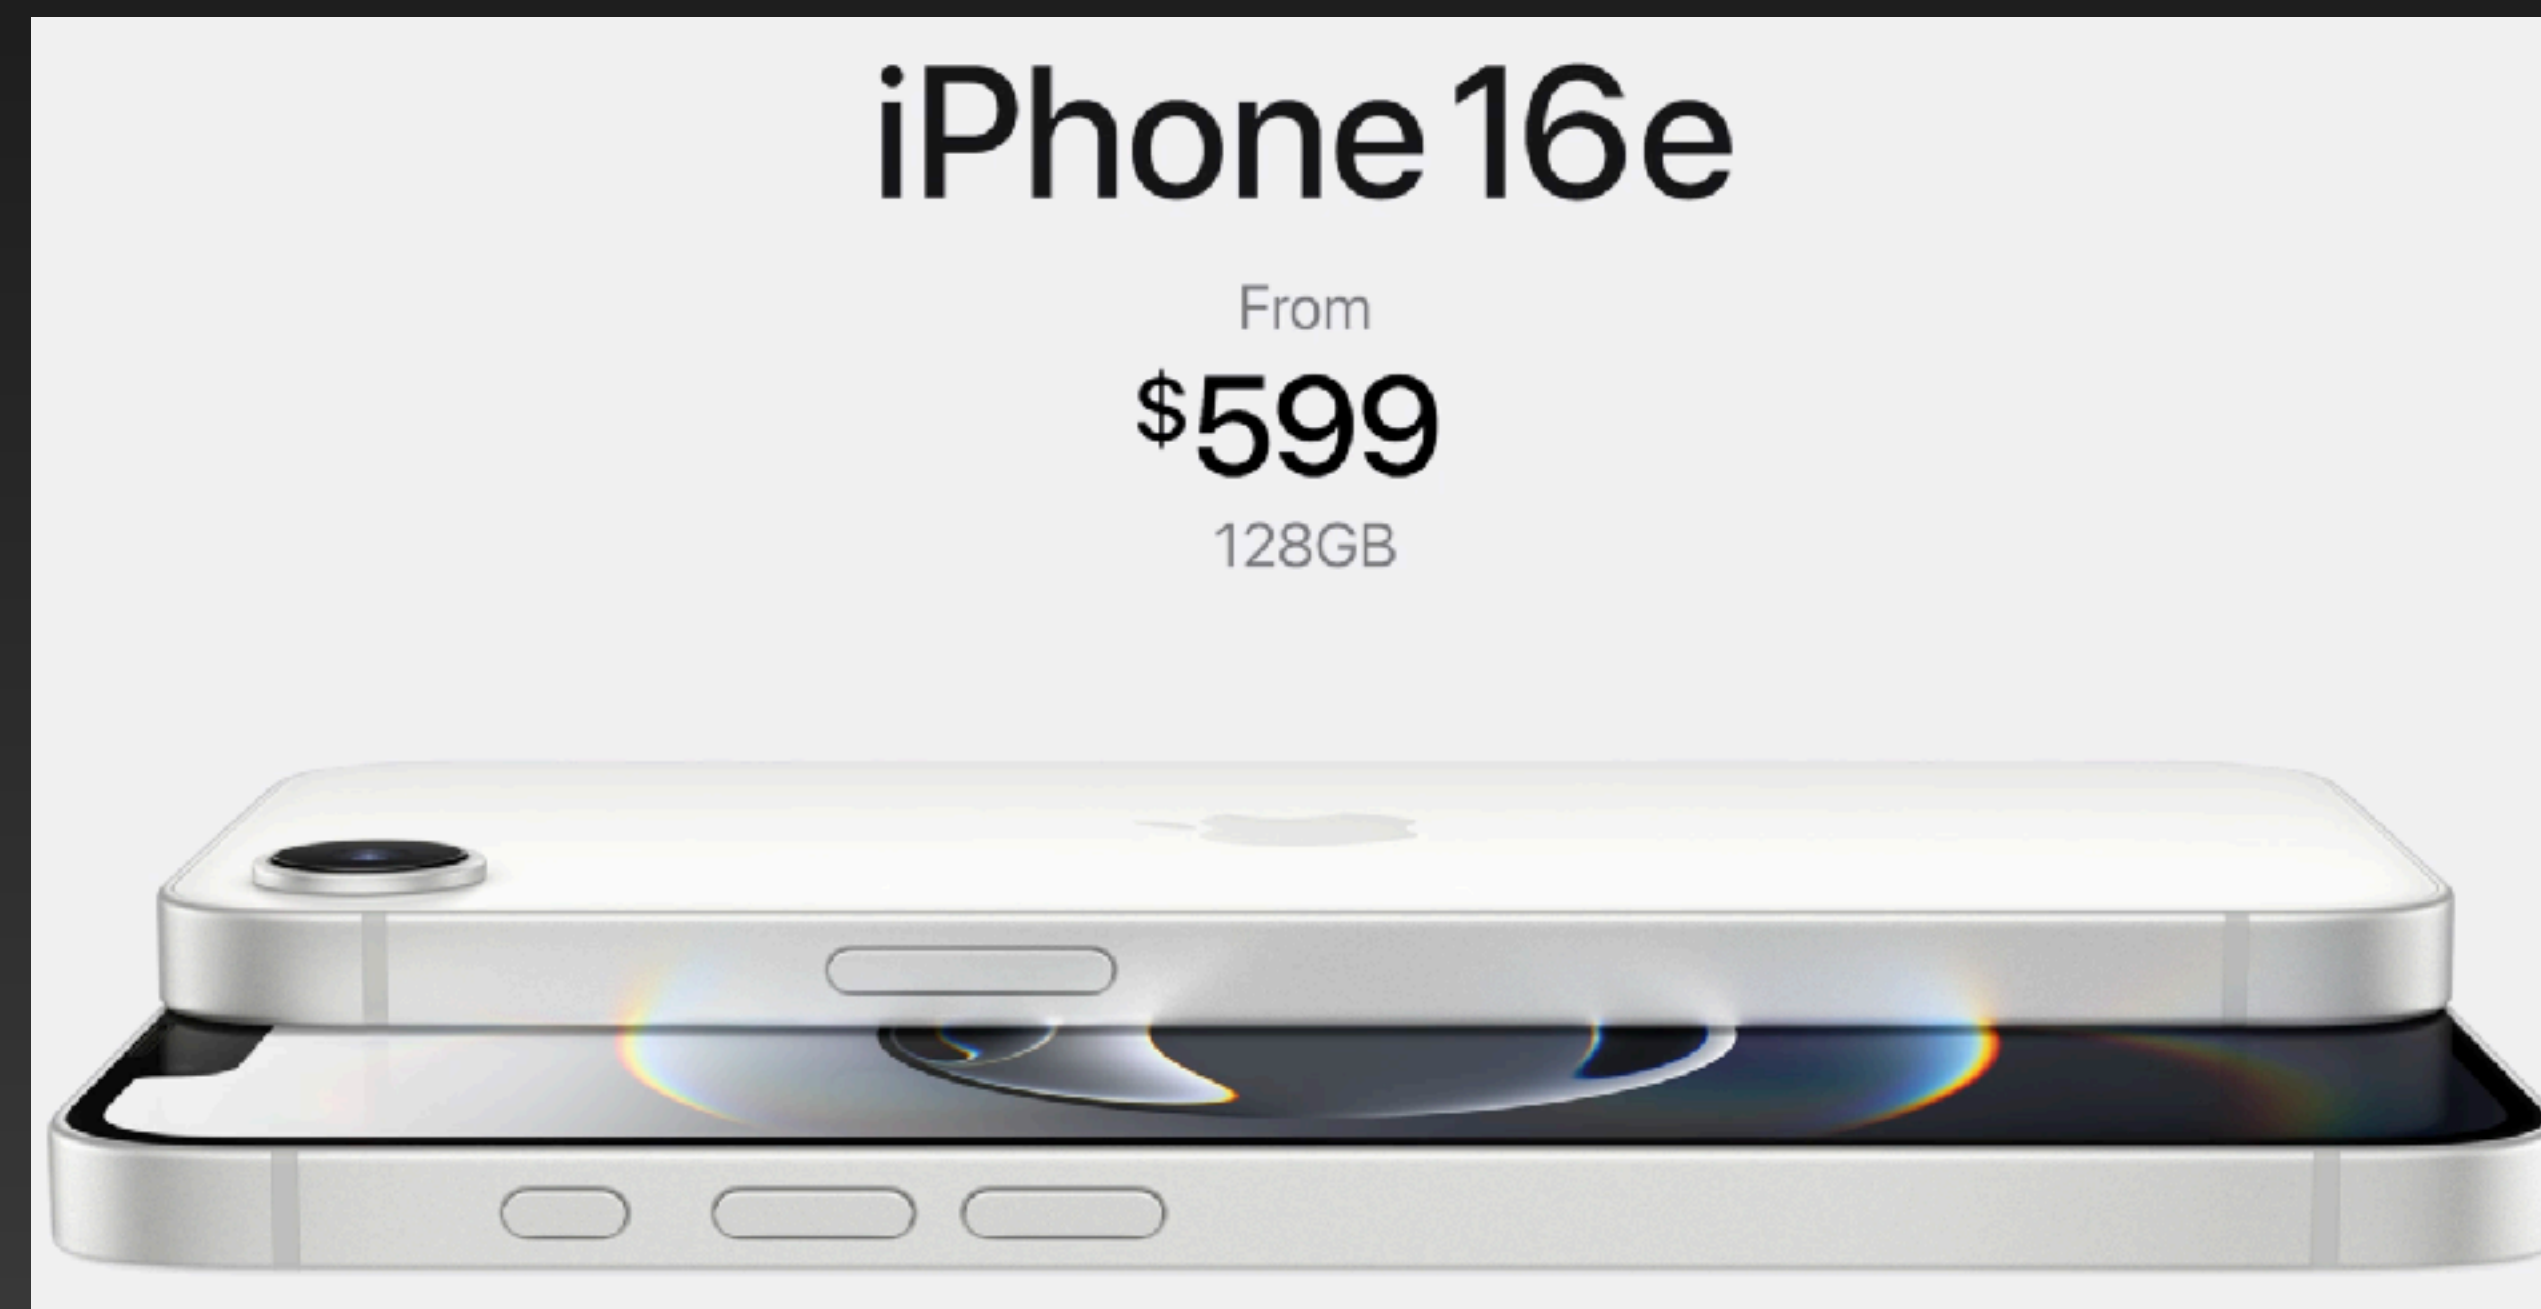

Face ID - To unlock iPhone 16e, there's Face ID. Easy and secure, it also allows you to authenticate purchases with Apple Pay, sign in to apps, websites, and more. With the privacy and security of Face ID and iOS, together with the convenience of the new Passwords app, you can trust iPhone 16e to safely store your passwords.

Long lasting - It's resistant to dust and water, and ready to handle all kinds of situations. The brilliant 6.1-inch display is protected by Ceramic Shield, tougher than any smartphone glass. With this durable design, iPhone 16e has up to four times better drop performance than older iPhones. The enclosure is made of aerospace-grade aluminum, it comes in an elegant matte white or black finish. And a range of colored cases you can easily accessorize for a more personal touch.

# iPhone 16e

Satellite services - iPhone 16e also has groundbreaking satellite services in available countries and regions. So when you don't have Wi-Fi or cellular coverage, this service from Apple lets you connect to satellites and send messages to loved ones in addition to contacting first responders or updating your location with Find My.
