

AppleCare One

“Save when you upgrade
to one flexible plan.”

Highlighted benefits:

Protect multiple products in one plan.

Get one monthly bill for all your products instead of a bill for each covered device. Manage it all through your Apple Account.

Enjoy expanded theft and loss coverage.

Replace a lost or stolen iPhone, iPad, or Apple Watch up to three times per year — one more than you get with an AppleCare+ with Theft and Loss plan.

Add eligible older devices.

Protect most devices that are less than four years old and in good working condition. And when you upgrade to a new model with Apple, it's automatically covered.

Add more products anytime...

...including ones you already own, for \$5.99/mo. each
